

GNMP Video Interview tips

Interviews must be undertaken any time between 10am on Monday 17 July until 5pm on Thursday 20 July

Preparation

- Using a laptop for your interview, looks more professional than using your phone.
- **Important - ensure you have "enabled pop-ups" on your laptop.**
- Check your technology, lighting and backdrop
- Wear clothing appropriate for an interview.

How it works

- Access the "start Video" link within your **PMCV application checklist**. This button will only be active during the interview period above.
- This will take you through to the video interview platform where you can read the instructions, test your technology and do a practice question (you can attempt a few times).
- Each question will appear on your screen. There isn't a person on the other end of the video asking the questions.
- For each question there is two minute reading time (when you can take notes), and two minute response time for each question. A timer on the screen will count down the time you have left.
- You can take breaks, but only in between questions.
- If you feel like you didn't do well in a question, ensure you continue to complete the remaining questions. Your perseverance will be viewed favorably.
- The questions are randomised therefore, candidates may not receive the same questions.
- Sharing questions with other candidates gives them an advantage over you.
- Candidates found to have shared questions may be excluded from the Match.

- All candidates will need to answer three non-clinical questions. The number of additional clinical questions is individualised to each candidate and will be based on the preferences in your application when it closed on Friday 7 July.
- Failing to submit a video may affect your application progressing with Health Services.

The number & type of questions to be displayed is based on individual preferences (it is not Health Service specific)

Preference combination (includes 3 non-clinical questions)	Number of questions
Nursing	4
Midwifery	4
Nursing and Midwifery	5
Nursing and Mental Health Nursing	5
Midwifery and Regional/Rural Health Service	5
Nursing and Regional/Rural Health Service	6
Nursing, Midwifery, and Mental Health Nursing	6
Nursing, Midwifery, and Regional/Rural Health Service	6
Nursing, Mental Health Nursing and Regional/Rural Health Service	6

Note: Barwon Health is considered to be a Regional/Rural stream

On the GNMP website, there is an short video of a PMCV Video Interview (note: it is not specific to the GNMP Match)
